CONSIDERATIONS (Aluma Products considered, recommended and Accepted/Not Accepted)

Structured Note	The Minimum Return Multi-Asset Global Note (the "Note") is a five year 100% ZAR capital protected investment linked to the CITI Flexible Multi Asset V15% Index (the "Index"). The investment objective of Note is to provide no minimum ZAR return, with the maximum possible full uncapped participation in the Index, with a 100% ZAR capital protected investment, thus also providing full USD / ZAR return exposure. It is Aluma's view that this investment could be suitable for investors who require exposure to a low risk USD Multi-Asset Balanced Portfolio and 100% ZAR capital protection.

STRUCTURED NOTES: Terms and Conditions

Investors should read this document carefully, in conjunction with the programme memorandum and the applicable pricing supplement of Nedbank Limited's Structured Note Programme (as updated from time to time) (together, the Programme) as well as the relevant marketing documents. If you are in any doubt about the suitability of the relevant security, you should consult your financial adviser.

Nedbank shall repay the initial amount (if any) at the end of the relevant term, together with the return (if any), subject to the terms and conditions of the Programme. The investor should receive a monthly account statement from their financial advisor showing the current value of the relevant security, subject to the terms and conditions of the Programme. The price of the relevant security should be published daily in the press by the JSE Limited. Whilst the JSE does provide a daily price, the nature of the product is such that full repayment is only available at maturity of the relevant security. During the term of the relevant security, the value thereof could be lower than the expected maturity value. All fees and charges are disclosed in the relevant marketing document and are payable by the investor to the financial advisor in each case. The Issuer receives no benefit in the form of fees, charges or otherwise from any investor or financial advisor. The past performance of any relevant security is not necessarily a guide to future returns and the Issuer gives no warranty as to the performance or profitability of the relevant security. Please note (if applicable) that the use of words such as (or similar to) "protected" or "minimum return" in the name of any relevant security or anywhere in the relevant documentation refers only to the obligation of Nedbank to repay any initial principal amount at maturity. Any early termination of the relevant security for any reason whatsoever including (without limitation) at the request of the investor or any early redemption event or disruption event in terms of the Programme may result in a loss for the investor.

A loss could also result from the Issuer not being able to perform its obligations in terms of the Programme. The relevant security is not guaranteed by any party.

The relevant security is a financial instrument listed on the JSE and represents a parcel of the investor's rights and obligations as the holder of the relevant security. As the holder of the relevant security the investment return (if any) is derived from the growth (if any) of a relevant index, indices or basket (as described more fully in the Programme).

Investors are able to hold the relevant security with an investor administrator or stockbroker of their choice, provided that the relevant investor administrator or stockbroker has a CSDP account where they can hold the relevant security for the relevant term on an investor's behalf. The relevant security will be registered in the name of a nominee company of the relevant investor administrator (it being the registered owner of the relevant security), but each relevant security is allocated to each relevant investor as the beneficial owner thereof by way of a sub-register per investor.

It is incumbent upon potential investors to at least seek independent professional legal, tax and accounting advice in order to consider the investment in the light of an investor's particular circumstances. No responsibility whatsoever is accepted by the Issuer for the treatment by any court of law, tax, banking or other authority in any jurisdiction of the relevant security and no undertaking, warranty or representation is given with regard to the outcome of any relevant security.

Any capitalised terms used herein but not otherwise defined herein shall have the meaning ascribed to such terms in the Programme.
